THE RUFFING SQUEEZE

IF YOU want to show your friends a pretty play, you can hardly pick anything more attractive than what is usually called a "trump squeeze," sometimes described as a "ruffing squeeze." It is effective in a situation which shows one defender with ability to keep following with higher cards in a suit you are trying to establish by ruffing his winners. By playing the winning cards of some other suit, you may oblige him to choose between discarding a winner in a third suit or throwing away a necessary card in the suit you have beer trying to establish. If he does the latter, you can then ruff up a winner for yourself.

Let it be presumed that West, in response to his partner's opening bid, led the club 8 to the Q. declarer ducking in the dummy and that East cashed his two diamonds and returned the heart K to the A. South can then run all but one of his spades, which would complete the first nine tricks. He would then retain in his own hand two clubs, the diamend J and the spade 3. Dummy would keep the heart 10-8, diamond Q and club A.

To protect the heart situation East would have to hold his heart Q-J, and to guard clubs the K-7. When South leads to the diamond Q. then, what will East toss? If a heart, the ruff of a heart sets up the dummy's other one; if a club, he sets up the winning trick in that suit. Pretty, isn't it?

IF YOU SUFFER from the common kind of constipation that is due to lack of "bulk" in the diet, here's some common-sense advice.

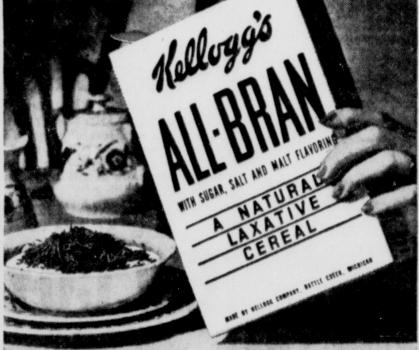

INSTEAD OF enduring the trouble first, and then taking medicines for temporary relief, why not get at the cause and correct it by regularly eating KELLOGG'S ALL-BRAN?

First, its regular use both corrects the trouble and prevents its recurrence. That's a whole lot better than the mere temporary relief that emergency medicines so often provide. And, second, it is much

Tired Kidneys Often Bring **Sleepless Nights**

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizalness.

Dartmouth Students Stage Celebration

HANOVER, N. H., Nov. 19 (AP) The Dartmouth undergraduate celebration of its football success against Cornell, which tapered down a bit as the boys followed classroom schedules, broke out with renewed enthusiasm Monday when it became known that their gallant Indians had been conceded the 3-0 victory they claimed for them as duly won on Saturday

Rallying behind their green-jerseyed bandsmen, more than 2,000 undergraduates agair whooped and snake-danced through the streets of this college town.

Dartmouth football captain Lou Young made public a telegram he received from Referee W. H. Friesell, which read:

"I want to be the first to admit my very grave error on the motion pictures of both colleges. I want to apologize to you, your players, Coach Blaik, all assistant coaches and Mr. McCarter Dartmouth Athletic Director William H. McCarter). I assume full responsibility. I want to thank you for all the fair treatment after the game. Lou, I am sorry, for you were such a grand captain and leader."

Football practice, intended to be a light one, was cut short when the students demanded that the players again appear before them.

Athletic Director McCarter reported that an invitation to play another game with Cornell for the benefit of the New York infantile paralysis fund had been declined because of Dartmouth's traditional opposition to post-season contests.
